

Children's Centres offer a well-established and invaluable resource for all families, providing essential support and services, all within a manageable distance. As well as supporting all families in the vulnerable early years they enable those with greater need to be helped without stigma and prevent crises being reached. They are a vital investment for a healthy and happy community but they are under threat of closure due to council cuts.

Join us to **demonstrate** against these cuts  
**Tues 15<sup>th</sup> September 2015.**

Meet midday by the Sheldonian, Broad Street to march on County Hall.  
Bring something to make a noise!
